## PAROCHIAL SCHOOL RULES.

Practical Suggestions to Parents, Responsible for Children's Bodies, Minds and Souls.

A set of rules has been formulated by those in charge of St. Joseph's parochial school for the special benefit of the children. The rules are to be given to all parents of children in the school. It is hoped that the parents will cooperate with the nuns in the education and training of the children. The rules are in part as follows: The time given to school is to be used for the purpose of giving the children to play, sunlight and exercise at games will keep them healthy in soul and body. Preparation for next day's lessons should follow supper, before the father begins his work. Parents may help by leaving their children never for them out of call after dark. Waywardness invariably starts with night. Parents should be united in all corrections, the one never putting what the other punishes. Likewise avoid interference from relatives at this period. Read them in school every day. Transgressions should always be reported to the nuns. Parents should be at home for some slight cause, and even girls should be in their classes when torn from their studies. See that they are on time, for it is but a step from the tardy scholar to the truant.

# An Important Last Minute Message to the Voters of Connecticut

If you want to vote for Theodore Roosevelt and Hiram Johnson for President and Vice President of the United States—

If you want to vote for Herbert Knox Smith for Governor of Connecticut—

If you want to vote against the corporations that have controlled your lawmaking for years—

If you want to vote for a Square Deal all around, and an end of political log rolling and lobby dictation—

Then put an (X) in the circle over the Progressive Party, or pull the bottom lever on the voting machine until the bell rings.

Don't be tricked or fooled into voting either the Democratic or Republican ticket. They are identically the same so far as corporation control is concerned.
